Experience:

Cummins (5/2017 to present) Columbus, IN

(6/2017 to present) - promoted to Web Development Leader
Drive the growth and technical relevance of Cummins' Global Web Center.

Job responsibilites include:
• Manage a multi-disciplinary team of developers and business analysts
• Advocate for technological modernity in application development
• Lead the conversion to a serverless, cloud-based architecture of GWC applications

(5/2017 to 6/2018) - Senior Developer Front-End (UI/UX)
Lead development for client-side layer of Cummins' Digital Accelerator.

Job responsibilites included:
• Develop the user-interfaces for Cummins' Digital Accelerator applications
• Manage and implement coding 'best practices' for code implementation, architecture, and storage

IntelliHire (8/2016 to present) Lafayette, IN

UX/UI Design Consultant
Design user solutions and implement user-interaction design patterns for IntelliHire - an online, human-resources application.

Job responsibilities include:
• Building Photoshop-based mock-ups of potential interaction functions
• Consulting with developers on user-interaction best practices
• Creating interactive prototypes to test application design scenarios

BWGS (3/2014 to 4/2017) Mooresville, IN

Web Designer/Developer
Led and organized key, web projects for BWGS, a leading distributor and wholesaler of organic and hydroponic gardening supplies.

Job responsibilites included:
• Managing interdepartmental team in the design and implementation of company websites
• Designing the user experience/user interface of new company websites
• Maintaining and updating company websites
• Advising management on marketing and technical strategies and issues

Sony Corporation (8/2003 to 3/2014) Terre Haute, IN

(5/2012 - 3/2014) - promoted to Multi-Media Developer
(12/2004 - 5/2012) - promoted to Graphic Artist
(8/2003 - 12/2004) - Offset and Screen Press Operator
